PROFILE

A MASTER'S STUDENT IN ADVANCED COMPUTER SCIENCE. I HAVE BEEN PROGRAMMING SINCE 10TH GRADE USING C/C++, JAVA, JAVASCRIPT, PYTHON. I HAVE TAKEN VARIOUS COURSES FROM COURSERA ON HTML, CSS, JAVASCRIPT, ANGULARJS, AND IONIC. AT PRESENT I'M DOING DATA ANALYST NANODEGREE PROGRAM FROM UDACITY.

EDUCATION

MSC IN ADVANCED COMPUTER SCIENCE,

UNIVERSITY OF HERTFORDSHIRE – 2018-2020(EXPECTED)

BE IN COMPUTER ENGINEERING,

GUJARAT TECHNOLOGICAL UNIVERSITY – 2014-2018

SKILLS

I have worked on projects using **HTML, CSS, Javascript, MySQL, Python** during my nanodegree program at udacity. And I also got experience on working with **Bootstrap, AngularJS** and **Github** while working on my final BE project in university, where a team of four people created an event management system. With technical acumen, I'm a firm believer of soft skills such as **team work** and **empathy**.

OTHER TRAINING

UDACITY

- **Nanodegree – Data Analyst** (December '18 – March'19)

Using the python programming language and other data science tools such as Numpy, Pandas and Jupyter Notebooks, I'm learning how to effectively wrangle data, visualise it and infer effective conclusions from it.

- **Nanodegree – Full Stack Web Development Part 1**(March'18 – June'18)

I learned important concepts of programming in python and also worked on various projects using HTML, CSS and Javascript.

INTERESTS

Apart from interests in data science and programming, I use my spare time to read books, play tennis and attend data science and artificial intelligence workshops or meetups.
